

VAZ DE ALMEIDA
ADVOGADOS

About Us

Focussing on what really matters

A non-conventional approach in support of leadership.

We are an independent law firm, dedicated to providing legal support for the international operations and investments of foreign companies in Brazil and the internationalization of Brazilian companies, from preparation to support in the destination countries.

Our Purpose is to identify and catalyze the best business opportunities, clearing the barriers that compromise our Clients' time and energy, so that they can focus on the work that really matters: exceeding the expectations of their shareholders.

Innovation from the inside out

Legal expertise with elegance, since 2001.

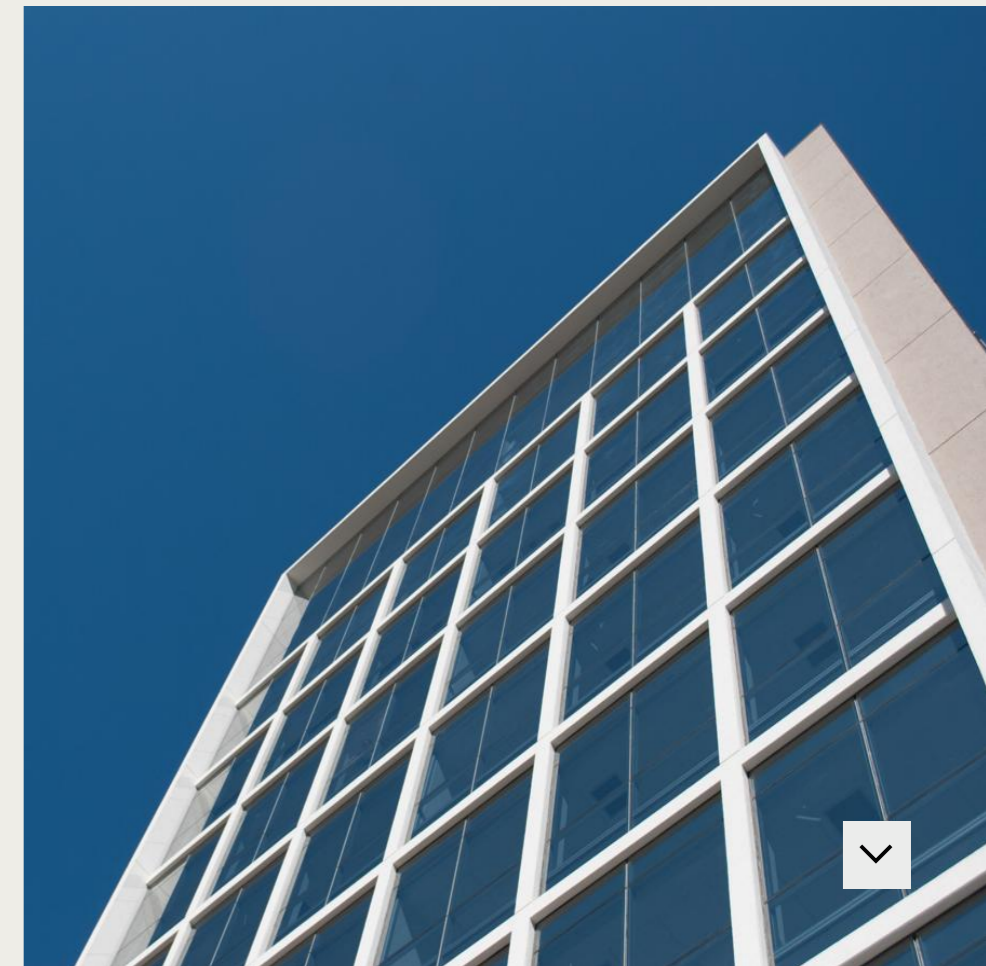

The new markets are no longer the result of long-term transformations. They appear instantly, anywhere, in unpredictable and unimaginable ways. That's why we edited our DNA to make Innovation a cornerstone of our culture.

We believe that Innovation is possible, without undermining the integrity of our values and principles – without renouncing the legacy that brought us here. Therefore, we open our doors and Windows, letting all currents get to us. Nevertheless, we stand firmly on our feet.

Ethics and Compliance

Either one has integrity, or one has nothing.

Our company prides itself of the care it gives to every ethical aspect of human relations and of everyday work, ensuring that our team never crosses the line of no return. That is why we hold the highest standard of internal demand, guaranteeing that every deal is made only for the advantages of its terms.

Crises management
Drafting of notices
Structured strategies

Documentation, negotiation and resolution of Claims

Specialized tax consultancy

Legal aid for businesses

Our firm is acknowledged – by our clients as well as by specialized publications – as a benchmark in Legal Support to the players of the Automotive and Auto Parts Industries, a sector of great economic relevance with a long supply chain.

Relations are not always smooth, given that technical service suppliers, Tiers and assemblers are all extremely sensitive to economic circumstances, not to mention the rising competitiveness on all levels of the chain.

Our experts know this scenario well and have both the experience and the skills needed to handle demanding negotiations, to develop or analyze contracts and to manage the vast and complex contractual documentation of these relations.

Asset Management related disputes

Disputes over succession planning
Due Diligence
transdisciplinary projects

We are always headed towards the best solutions and alternative means for resolving conflict – in the most intelligent, agile and least costly way for our clients – favoring negotiations over legal actions

Nonetheless, when negotiations are not possible, we have an experienced team, that specializes in legal disputes, highly qualified to act under pressure with agility, like an «offensive line».

The oldest department of our firm upholds a precious tradition of technical excellence in legal writing, procedural strategy, edicts and oral arguments in court and lodgment of appeals in all instances, with the aim of assuring the discharge or transfer of obligations, the fulfillment of civil liabilities, the observance of contracts, possession and ownership, as well as consortia of goods and rights.

Community

Sharing needs in order to share the meaning of life.

Doing good might simply be smiling, listening carefully, be silent, speak with sincere affection or donating a little of our time.

We believe that doing our job with passion is also a way of doing good, intervening positively in society and building a legacy. Donating oneself is a structural demand of the human condition, and when we fail to do it, we fail to fulfill ourselves.

Looking to real people

When we recognize something beautiful, something that matches our desire for happiness, we feel compelled to communicate it to others. And when we see someone's dignity violated, their integrity compromised or their potential ignored, something in us demands that we shift some of our energy to «do something». Sometimes it's just being available.

Inclusion, diversity and civic engagement

Our way of living, embracing, leading and endeavor.

We celebrate diversity and defy every form of prejudice, because we want everyone to be proud of what they are and want to be.

Furthermore, we believe that a truly inclusive culture shows itself in an open space for everybody, dissolves barriers and unleashes each person's natural potential.

Women

Vaz de Almeida Advogados is proud of its uninterrupted history of respect for women and the facts speak for themselves: in our Firm, 50% of leadership roles are played by women, including the Strategic Committee of Leaders (2023).

Since March 2021, we have formally committed to the global #HeForShe movement, becoming its signatories (#2221499) as well as promoters.

Pro Bono Legal Support & Agenda 2030

Guidelines for the selection of partnerships.

We are signatories of the 2030 Agenda, the ambitious appeal to solve humanity's main challenges, signed by the 193 Member States of the UN.

Legal expertise with
elegance, since 2001.
